

We pack our complete range of high quality frozen potato products and appetizers under the Mondelle® brand. We supply Mondelle® to both the food service and catering segments as well as consumer packaging for retail channels.

All the products are carefully processed and packed in Belgium, the Netherlands and in Spain.

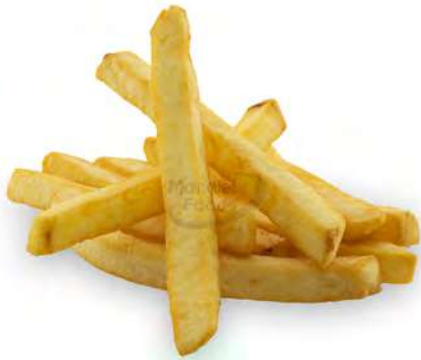

All of our products are IFS and BRC approved. These and the numerous quality checks at each step of the production process, from raw material to sending, prove that quality is not just an empty promise. We guarantee full traceability from the consumer's fork to the field.
